Relecura Forms Strategic Partnership with Roots IP on Patent Services and Illustrations

Relecura is a full-stack cognitive cloud platform that provides custom intelligence and reports on patent portfolios, technologies and companies. It does this by capturing and organizing the knowledge from various document repositories (patents, scientific literature) and subject matter experts in a flexible and collaborative manner, into a knowledge base. Relecura offers IP analytics tools and a custom enterprise platform to corporations, law firms, IP services firms, R&D organizations and academic institutions.

Roots IP Services LLP is a consulting firm providing end to end IP services to its clients for building profitable intellectual property. Roots IP has well trained and highly qualified IP experts in various technical domains. Roots IP's core competencies are to provide customized and cost-effective patent search and illustrations services. Roots IP provides complete patent solutions from prior art searching to patent filing.

Mr. Vijaya Bhaskar Reddy A, Founder of Roots IP Services LLP says "We are extremely happy to announce our partnership with Relecura. This partnership will be a win-win situation for both the organizations. Now, Roots IP can also provide Relecura database services to the clients."

Dr. George Koomullil, Founder of Relecura Inc says, "Relecura believes in technology innovation, simplify data processing and equip customers with solutions to support their technical decisions. Through working in partnership with Roots IP, we will be able to provide clients with next-gen technology and technical capabilities. This collaboration will better address the needs of the clients by providing quality solutions and support."

About Relecura:

Relecura Inc is a software product company based in the San Francisco Bay Area, and its subsidiary Relecura Technologies Pvt. Ltd. is located in Bangalore. The company's full-stack cognitive cloud platform aids in managing strategic decisions by drawing powerful insights from patents and scientific literature using AI, ML and NLP. Relecura's enterprise platform integrates the discovery and analysis of public documents with internal company documents, thus building a single knowledge base for organization-wide usage. Relecura has an API to help create custom tools for IP and business intelligence. For more details visit www.relecura.com.
