## **Relecura forms strategic partnership with Pitch Scientific on Patent Search Services**

Relecura is a full-stack cognitive cloud platform that provides custom intelligence and reports on patent portfolios, technologies and companies. It does this by capturing and organizing the knowledge from various document repositories (patents, scientific literature) and subject matter experts in a flexible and collaborative manner, into a knowledgebase. Relecura offers IP analytics tools and a custom enterprise platform to corporations, law firms, IP services firms, R&D organizations and academic institutions.

Pitch Scientific is a leading patent research and analytics company. They are a reliable and trusted name in Intellectual Property Support Service industry for patent prior art search, patent litigation search support, patent landscape analysis, competitive monitoring, infringement detection and evidencing, market research and information analytics. Their services expand across entire intellectual property life cycle.

Dr Arvind Viswanathan, CEO of Pitch Scientific says “In this era of Knowledge Economy, it is not enough to know about one’s own intellectual property assets, but also equally important to know about others IP also simultaneously. Only then can a business position its own technology and assert its rights appropriately to maximize its profitability. Hence the need of the hour is for a speedy way to search for existing patents, designs and trademarks in order to take timely decisions. Pitch Scientific has the technical expertise and the experience to conduct such searches and provide high quality reports that enables businesses to proceed towards the next steps. Relecura provides a unique technology platform on which to perform these searches. The uniqueness of the platform is its ability to be customized to Pitch Scientific’s processes, which provides the framework for its speed and high quality. This association will result in better delivery of high quality work products, wherein the work products include not just standardized reports such as patentability, invalidity or FTO, but also tailored reports for specific and distinct situations unique to each organization, whether it is a law firm or a technology corporation.”

Dr. George Koomullil, Founder of Relecura Inc says, “With technology being a critical aspect of a business, companies recognize the need to strategize their intellectual asset development for gaining a competitive edge. The partnership between Pitch Scientific and Relecura brings together the Pitch Scientific’s IP expertise with Relecura’s next-gen technology and technical capabilities. This collaboration will better address the needs of the clients by providing quality solutions and support. The partnership will synergize the effectiveness and efficiency of specialized services in terms of spread, depth and delivery.”

#### About Relecura:

Relecura Inc is a software product company based in the San Francisco Bay Area, and its subsidiary Relecura Technologies Pvt. Ltd. is located in Bangalore. The company’s full-stack cognitive cloud platform aids in managing strategic decisions by drawing powerful insights from patents and scientific literature using AI, ML and NLP. Relecura’s enterprise platform integrates the discovery and analysis of public documents with internal company documents, thus building a single knowledge base for organization-wide usage. Relecura has an API to help create custom tools for IP and business intelligence. For more details visit [www.relecura.com](http://www.relecura.com).

#### About Pitch Scientific:

Pitch Scientific is a full service end-to-end providing IP research and analytics services company, considered to be one of the fastest growing companies in India. Company have been in this market from past 2 years and have grown rapidly since inception. Their abilities include searching patents, industrial designs and trademarks for a wide variety of situations. With a team of technically qualified experts having prior experience in the “real world”, their specialty lies in patent searching. Coupled with market research team who work closely with the patent search team, we provide an in-depth look at various upcoming technologies from a variety of perspectives. This can range from “one-dimensional” simple reports to “multi-dimensional” IP and business intelligence. Thus clients obtain “never-before-seen” actionable insights into the business and technology simultaneously. [www.pitchscientific.com](http://www.pitchscientific.com)
